

Grant Chiropractic & Wellness Center

Health and Wellness Success Story

In a few sentences explain how Chiropractic and the knowledge of a wellness lifestyle that you received at Grant Chiropractic & Wellness Center, has changed your life.

My daughter referred me to Dr. Grant. I had seen a chiropractor about 10 years before and was being seen by a physical therapist for headaches and back pain for a few years. Physical therapy helped, but my progress seemed to have stalled. Dr. Grant took x-rays and found 2 discs in my mid-back with problems. After seeing Dr. Grant for the past year, my neck pain is pretty much resolved with only occasional flare-ups. Back pain is much better. I'm able to lead a very active lifestyle of competitive fencing, horseback riding and occasional skiing. And, of course keeping up with a teenager!
