

# Grant Chiropractic & Wellness Center

## *Health and Wellness Success Story*

In a few sentences explain how Chiropractic and the knowledge of a wellness lifestyle that you received at Grant Chiropractic & Wellness Center, has changed your life.

Toston was born 8 weeks prematurely and we have been bringing him to Dr. Bart for adjustments from the time he got out of the NICU. Toston has struggled with clinical acid reflux from the time of birth and with Dr. Bart's adjustments it has been handled well. Toston has been the happiest baby, has always slept extremely well and has been the picture of health other than a few minor colds but never an ear infection thanks to adjustments. We have a great appreciation for Dr. Bart's help!
